CAR PARKING - 11/101  
NOTICE OF MOTION

Members gave consideration to a Notice of Motion submitted by Mr Gimbert as follows “that Peel Town Commissioners in conjunction with the Department of Infrastructure progress with phase two of Top Deck parking option for Douglas Street and Market Place Car Park”.

The Motion was seconded by Mr Beale and Mr Gimbert as the Chairman of the Chamber of Trade and Commerce indicated that a proposal to provide a possible kit form multi-storey car park on the Douglas Street/Market Place car park could provide a net gain of sixty parking spaces. In Mr Gimbert’s opinion this provided good value for money.

Mrs Moughtin referred to previous discussions with the Department of Infrastructure regarding their proposal for additional parking provision in Peel and indicated that the Douglas Street Car Park was deemed to be not suitable for the kit form multi-storey car park due to the ground not being level. The only level sites owned by the Commissioners were the Creg Malin car park and Fenella Beach car park. Mrs Moughtin enquired as to who would pay for this car park as the Commissioners would not be able to afford it on the Rates. Mrs O’Halloran was unsure of the provision of a kit form multi-story car park and if it would be architecturally appropriate for Peel. Mrs Birkett queried the cost of moving onto Phase Two of this proposal but was not opposed to a kit form car park in principle. Mr Jones suggested that the Commissioners needed to work closely with the Department of Infrastructure over the most suitable location.

The Chairman requested Members to vote on the motion and it was found that four Members were in favour with four opposed. The Chairman therefore made a casting vote in favour of the motion to progress with Phase Two in conjunction with the Department of Infrastructure.

On the basis that the access to the Commissioners adjacent car park in Derby Road was not compromised members had no objection to the proposed lane closure.

Mr Jones suggested that a letter be sent to the Head Teachers of both schools indicating that the provision of the Town facilities for youths was being hampered by cost of repairing vandalised facilities and help be sought from the school to eradicate this problem. The Town Clerk reported that the matter had also been listed on the Commissioners website with a request to members of the public to report any incidents of vandalism witnessed. Mrs Birkett indicated that she would inspect the play areas with the Town Clerk and Technical Officer to consider possible improvements.

REGULATION ACT  
1985

The Town Clerk indicated that a Draft Order had been received from the Department of Infrastructure regarding the imposition of a weight restriction order for various roads within the town. Comments had been sought by the 20<sup>th</sup> June 2011 and as the next Board Meeting was scheduled for 21<sup>st</sup> June 2011 it was *AGREED* to request that the deadline date for comments be deferred to enable consideration of the Draft Order at the next meeting.

Mr Jones indicated that the equipment needed to be of sufficient quality to enable matters to be referred to court if required. Mr Lace stated that this was a costly exercise and queried the value to the rate payer. Mr Beale suggested an alternative would be to withdraw youth facilities if they were continually abused and vandalised. Mrs Birkett favoured the loan of a camera to assess the position. In response Mr Gimbert indicated that the majority of incidents occurred during darkness and that the infrared camera was priced at £350.00. The Chairman requested Members to vote on the Motion and it was carried by five votes in favour with three against.

NOTICE OF MOTION

Consideration was given to a Notice of Motion from Mr Gimbert as follows “that Peel Town Commissioners provide internet hot spot areas around the town linked to the Commissioners properties, such as the Town Hall, Sailing Club, Ward Library and Leece Museum”. The Notice of Motion was seconded by Mr Jones and discussed by the members. Mr Gimbert proposed the provision of a software package at a one off cost of £377. The matter had been discussed with the Finance Officer which she had subsequently raised with Skanco Limited, the computer service provider to the Commissioners. Concerns had been voiced over any possible breach of the firewall and Skanco had recommended a separate

computer to run the service proposed. Mr. Lace enquired as to the cost falling on the ratepayer to provide internet access at these various locations and whilst Mrs. O'Halloran supported the matter in principle Mrs. Birkett enquired as to why this should be linked to Commissioners properties. The Town Clerk expressed concern that any such new service provided should not compromise the Commissioners own computer network. She was concerned at the number of Notices of Motions submitted by Mr. Gimbert at the meeting. Mrs. Moughtin referred to the recent press article showing the poor quality of water on Peel beach and stated that due to the stance taken by the Board the Town was now at the back of the queue for any works taken to provide a sewage system to eradicate the problem. It was Mrs. Moughtin's wish that the next Member of the House of Keys for Peel would work with the Commissioners to progress matters to the benefit of the Town including its sewage.

Mrs. Moughtin also referred to the Commissioners facebook entry and suggested that comments made on this internet site needed to be carefully considered as there were proper channels to deal with matters that came before the Commissioners. In particular she referred to a comment made by Mr. Gimbert over a housing issue. Mrs. Moughtin's concerns related to the perception that the whole Board may or may not support comments made by an individual Member. In response the Chairman indicated that if he perceived that any Member was electioneering at Commissioners meetings then it would be stopped. Any legitimate matter relating to the powers and responsibilities of the Commissioners would be considered.
